*Director of Special Services*

Mr. Tom Wright  
Wright Construction Services, Inc.  
615-B Spirit of St. Louis Blvd.  
Chesterfield, MO 63005

Hello Tom,

I want to personally thank you for the opportunity to work with Wright Construction Services, Inc. As a public school official, there is always a concern for quality when having to work with the low bidder on a project. We often feel that the contractor might have “missed something” in the bid process creating a difficult working relationship throughout the project. You and Dan provide outstanding leadership and are always concerned that the client gets what they need and what they are promised in the project. Below is a quote that you are free to use as a reference to your work. Thank you for delivering a quality project and a building that will be a cornerstone for our community.

“As an educator for 30 years and a central office administrator in the Orchard Farm School District since 1997, I am extremely impressed with the work ethic and performance of Wright Construction Services, Inc. Tom Wright and Dan Dreckmann provide leadership that can be counted on to get the job done on time and in budget. As the general contractor selected to build Discovery Elementary, 76,000 square feet, Tom and Dan assisted the design team in adjusting schedules and specifications that not only saved the district money, but delivered all phases of the building on time. We were able to open Discovery Elementary for the start of school in August of 2010 even though construction was delayed by the federal permitting process until July, 2009. Wright Construction Services, Inc. is a leader in the construction industry. The outstanding construction services, leadership and cooperation provided by Wright Construction Services, Inc. in our project have also been witnessed by my colleagues in other districts who have worked directly with Tom Wright and Dan Dreckmann. Without reservation, I would recommend Wright Construction Services, Inc. for your next construction project. If you want leadership who cares about quality, communication, workmanship and performance; call on Wright Construction Services, Inc.”

I hope we will have an opportunity to work together in the future on any construction projects in the district.

Sincerely,

Dr. Daniel G. Dozier  
Superintendent of Schools
